TUMI SIGNS DRILL CONTRACT FOR EL COLORADO, MEXICO

Vancouver, Canada – Tumi Resources Limited (the “Company”) (TSXv-TM; Pinksheets – TUMIF; Frankfurt - TUY). Mr. David Henstridge, President, announces that a drill contract has been signed with Globexplore of Hermosillo, Mexico to undertake an initial reverse circulation drill program at the El Colorado silver-gold prospect. A minimum program of 750m in 5 holes will be undertaken.

Four separate areas noted for intense hematite alteration and relatively abundant quartz veining or stockworks have been selected for drilling. All areas show anomalous silver values in soil geochemical sampling, and in one area known as El Frances, there is evidence of old drill holes (see press release dated June 3, 2009).

Mr. Henstridge stated: “It is exciting that El Colorado silver-gold prospect has reached the drill stage, and we look forward to the results of this program. It is expected that this program will commence within one week.”

The qualified person for Tumi’s projects, David Henstridge, a Fellow of the Australian Institute of Mining and Metallurgy and a Member of the Australian Institute of Geoscientists has visited the El Colorado project in Sonora, Mexico, and has verified the contents of this news release.

On behalf of the Board,

“David Henstridge”
David Henstridge, President & CEO
